

Summary of ECD Global Alliance Internet Chat **March 17, 2018**

5 Attendees

- Although I "threatened" to be there, I didn't make it after all. Better luck next time.
- A new member came on from India. The Chatter's mother has ECD and has been on interferon for the last two and a half years, with good progress. She had a huge weight loss and weighed around 37kg. (~82 lbs.), but now she has put some weight back on and is 47kg (104 lbs.). She has persistent problems with pain in her arms, back, and spinal cord. She is also trying home remedies for some problems like cough and headaches.
