

Jasmine H. Francis, MD FACS

Dr. Francis is an Associate Attending Surgeon of Ophthalmic Oncology at Memorial Sloan Kettering Cancer Center (MSK) and an Associate Professor of Ophthalmology at Weill Cornell Medical College. She graduated Magna Cum Laude from Columbia College at Columbia University where she spent a year studying abroad at Oxford University. She received her medical degree from New York University School of Medicine and completed an ophthalmology residency at New York Eye and Ear Infirmary followed by a fellowship at MSK.

Dr. Francis is an accomplished clinician-scientist having published numerous peer-reviewed papers and book chapters. She often presents at national and international meetings. She has developed a deep interest in histiocytosis and involvement of the eye, including the effects on vision from both disease and treatments. She is dedicated to maintaining and improving vision in patients with histiocytosis. She is part of a multi-disciplinary team at Memorial Sloan Kettering Cancer Center, which is committed to the comprehensive care of patients with histiocytosis employing the optimal, and sometimes novel, treatments.
